THE DIFFERENCE IS VITAL.

Have you ever felt like pulling over in a rainstorm because it was so difficult to see?

Do bugs, snow, ice and insects stick to your windshield?

Does glare make night driving difficult?

Do you take pride in keeping your car in pristine condition?

Safety on the road is no place for compromise.

Glassparency is an advanced, transparent glass treatment that forms a unique ultra-hydrophobic barrier.

The result is the ultimate in glass protection, unmatched for performance and durability.

Looking for even more advantages?

Glassparency contains no waxes or additives that can cause yellowing, blistering or peeling.

It will not stick to your windshield wipers... a common problem with do-it-yourself products.

THE BENEFITS ARE VISIBLE.

- Glassparency improves visibility in inclement weather, when drivers struggle the most.
- Insects can be effortlessly washed away.
- It makes ice, snow and road dirt much easier to remove.
- Glassparency Reduces Glare.
- Protects against acid rain, corrosion and mineral build-up.

Free maintenance. Continual peace of mind.

Glassparency is a one-time application that's maintained free of charge by your technician during your warranty term by your certified glass shop.

You will receive text and email reminders during your warranty term for seasonal maintenance on your windshield by your certified glass shop.

Ask your repair / replacement professional about the vital safety and visible performance advantages of Glassparency. And don't forget to inquire about our Repair or Replacement Warranty Programs.
